The light has come to us. Although it is still dark in the world, although evil and death still have their time, the light cannot be contained. It will burst forth like the sun breaking over the mountains and glory will stream across the earth. It is the time of the manifestation, the showing forth of the glory of God...

Advent, Christmastide, and Epiphany form the season of light, light that is afar off, light that interrupts and explodes into night's darkest hour, and light that is loose in the world. The light is seeping into the world, making its presence felt...

Originally, the early church had two pivotal seasons of the year, Easter and Epiphany – the poles of light at the beginning and end of the life of Christ, the light of the world
